

A Wonderful Experience!

One Monday the talent search for the GSO talent team began in the school. Everyone talked about it and wanted to participate, but I was not sure whether I should participate. Several students asked me whether they could sing a duet with me. But I always said no. But Nejla and Emel persuaded me. I went to my girlfriend Debby and asked her if she wanted to sing with me. She laughed and said “yes”. We had to sing on Thursday. There were over 50 students. Debby and I had practised the whole day. I wanted to sing the song by the band “Elektrisches Gefühl”. We got the number 12. We were excited to sing in front of the jury. Our friends supported us. Later we came out of the room and screamed: “We have made it”. All of us were pleased. 5 students reached the second round. My girlfriend Emel and her friend Xhemile also took part. They danced and were very good. And they made it, too. And three other groups made it, too. Debby and I were happy and were looking forward to the next show. The next day we had to sing again. All five groups reached the final. The last show was on the next Thursday, so we had time to practise. Finally it was time. We had to sing after Emel’s and Xhemile’s part. Later the boys had to do their rap followed by two girls and a group of five girls. All took great effort but only one group would win. I have never been so excited. At the end all of us had to come on stage to get to know the result of the talent show. Emel and Xhemile won. Debby and me were second, the boys third. So we were very happy and will never forget this day. It was really fun and a great experience.
